General Information

LOCATION.—Bridgewater College is situated in the suburbs of Bridgewater, Virginia, a thriving town of about one thousand inhabitants, on the Chesapeake-Western Railroad, 20 miles north of Staunton and 145 miles south of Washington, D. C. Students coming over the Norfolk and Western to Bridgewater change at Elkton, those over the Baltimore and Ohio or Southern change at Harrisonburg. This is one of the most beautiful and fertile parts of the great Shenandoah Valley, in the highlands of Virginia. It is over twelve hundred feet above the sea level. The most eastern range of the Alleghanies stretches blue and beautiful in the distant western horizon, while gleams of the Blue Ridge, twenty miles eastward, now and then rise to view.

The College grounds comprise about thirteen acres, and being well elevated are well drained and insure dryness and healthfulness at all seasons.

The College has at present six large buildings and a central heating plant.

STANLEY HALL, erected in 1889, is the chief home of the Preparatory Department, and it also contains the Commercial and Shorthand and Music Departments. Its recitation rooms are equipped with new, modern, tablet-arm settees and other modern furniture. The Commercial Department has well-arranged banks, and exchange and practice offices. The typewriters have a good room and late, modern machines. Here are also the light and cheerful music studios, and the organ and piano-practice rooms, besides large rooms for vocal classes, harmony, music, history, etc. This building also contains the Assembly Hall or Chapel, with a seating capacity of nearly three hundred.

FOUNDERS' HALL was completed in 1904, and is equipped throughout with new, modern furniture. In it are the College offices, the large well-lighted Library, the recitation rooms for higher Mathematics, English and

Modern Languages, Greek and Latin, Biblical subjects and History, the Chemical and Physical Laboratories and Storage room, the Museum and the Victorian and Virginia Lee Literary Society Halls.

THE LADIES' DORMITORY was erected in 1905. This is a splendid modern brick structure, with well-lighted, comfortable rooms, baths, etc., and large parlor. The rooms are carpeted, and each is furnished with a handsome suit of oak furniture, consisting of dresser, commode, table and chairs, and an iron bed with springs and mattress. At least one professor and his wife reside in the building and take the kindest care of the young ladies.

THE WHITE HOUSE, erected in 1888, contains at present the college dining hall, kitchen, store rooms, steward's rooms, etc., a music studio and music-practice rooms. The entire second story of the building is divided into rooms for young men.

GYMNASIUM.—The gymnasium was built in 1908. It is a substantial brick building of two stories. When completed the lower story will afford abundant room for baths and lockers. The second story is high, well-lighted and without obstruction, and thus affords excellent opportunity for both individual and class drill in systematic physical exercise. It is expected that these classes will prove an important means of strengthening the health of our student body, and make the too often heard "break down" of many best students an experience of the past only.

WARDO HALL, a dormitory for young men is now in process of erection. Work was begun on it early in April and it is expected to be ready for occupancy by the opening of next session in September. It is constructed of native brick and concrete, and will be modern and complete in all of its appointments. The three stories above the basement will provide rooms for about seventy young men. The rooms will be of ample size, and well lighted and ventilated. The furnishing will be modern and comfortable. The building will be heated with steam from the central plant, and will be lighted with electricity or gas.

CENTRAL HEATING PLANT was completed in 1906. All the buildings are heated by steam from this plant.

THE ATHLETIC FIELD.—Comprises three acres and provides ample room for baseball, and several basket ball courts. It was added in 1904. Other parts of the campus affords ample tennis courts.

WATER fresh and abundant is supplied to all the buildings.

LIBRARY.—The College Library contains about five thousand volumes. Besides, each of the literary societies has its own library, as do the Mission Society and the Bible Department. These additions augment the number of volumes to about 6,000. All these are accessible to our students, who are encouraged to broaden and deepen their knowledge by as much research as possible. A library official is in the library from 8 to 11 a. m., and from 1 to 4 p. m., each work day. *Friends of the College are earnestly urged to assist in enlarging the library by donating either books or money.* All such contributions will be labeled with the donor's name. For a list of the donations made during the past session see a later page.

LABORATORIES.—The fact that the natural sciences can not be taught successfully without the aid of laboratories has not been overlooked by the promoters of the College. The Chemical and Physical laboratories are located in Founders' Hall and contain fairly good working outfits for practical exercises in these subjects. The Geological and Biological laboratory is at present situated in Stanley Hall. Through the generosity of numerous friends the equipment of this laboratory has been very materially increased. The additions consist of a number of high grade microscopes and various other biological apparatus and material. No less important additions have been made to the working outfits for Geology, Meteorology, Physical Geography and Mineralogy.

MUSEUM.—Through the benevolence of friends and patrons, and partly by purchase, the College has been enabled to secure a very useful collection of minerals, fossils

natural curios, &c. The cases now contain hundreds of specimens which are of great value in the study of natural sciences. A good sized room in Founders' Hall has been set apart for this department of science, and the attention of the friends of the College is kindly called to the further needs of the Museum. Specimens of ores, petrified leaves, fossils, sand stones, coals, slates, marbles, granite, etc., are found in many localities, and can be collected at a small cost. On being donated they will be labeled with the donor's name and address, and will remain a permanent memorial of his thoughtful care and benevolence. For list of recent donations see a later page.

LITERARY SOCIETIES.—Well-conducted literary societies are most valuable adjuncts to practical education. Emergencies are constantly arising in life when it is necessary to speak or read in public. Power to do this clearly and forcibly is attained only by practice. The Virginia Lee and Victorian are two carefully conducted literary societies under the supervision of the Faculty, meeting on Friday evenings in their respective halls. From the two societies, students of sufficient merit and advancement are promoted to the Acme Society on the recommendation of the Faculty. All this work is intended to cultivate a taste for the best literature and for chaste and strong methods of expression. Special public programs are occasionally given. Each society has its own hall, well furnished. Prizes are awarded to successful contestants in reading and oratory.

MISSIONARY SOCIETY.—This society devotes one hour each week to the study of missions abroad or at home. It also provides a scholarship.

PUBLICATIONS.—The publications of the college are: (1) *The Philomathean Monthly*, (2) *College Life*, (3) *The Annual Catalogue* and (4) Frequent Special Circulars. *The Philomathean Monthly* is a modest journal of pure literature published by the literary societies. Its aim is twofold: First, to offer a medium for the preservation, in permanent form, of the best thought of the members, and for the cultivation of a chaste and graceful literary style; and second,

to unite in kindly remembrance and active interest all members of the societies, old and new. *College Life*, a quarterly, is conducted chiefly by members of the Faculty. It aims to encourage young men and young women everywhere to secure as good education as possible, and to keep the alumni and other friends of the institution in closest and most cordial touch with the needs and progress of the College. *The Annual Catalogue* and the Special Circulars give such information as their names imply.

GOVERNMENT.—All those who apply for admission as students of the College are presumed to be ladies and gentlemen. They are urged to carefully inspect their own conduct, to aim constantly at higher ideals in deportment as well as in morals. A few simple regulations, believed to be mutually helpful to all, are prescribed, to which all students are expected to yield a prompt, ready obedience. It is the earnest wish of the Faculty to assist students in every way, and to be regarded as their steadfast friends. Yet whenever for any reason we are satisfied that the presence of any student is injurious to his fellows or the school, we shall refund the proportionate part of his fees and require his withdrawal.

GRADUATION.—The degrees of Bachelor of English (B. E.), Bachelor of Arts (B. A.) and Master of Arts (M. A.) are conferred by the College for work done and on the following conditions :

To attain the B. E. degree the student must complete the work of the English-Scientific Course, (College Preparatory Course) passing each subject at a grade of not less than 80 per cent. and prepare an oration which after being accepted he shall deliver on graduation day if requested by the Faculty to do so.

For the B. A. degree the student must complete sixteen college courses at a grade of not less than 80 per cent. on any course. All the work of the senior year and part of that of the junior year is elective. The candidate for this degree must also prepare an oration on a subject approved by the faculty, which he shall deliver on the occasion of his graduation.

The M. A. degree is conferred on B. A. graduates of Bridgewater College only. To attain this degree the student must complete four college courses, chosen with the approval of the faculty from the group of electives, none of which were counted for the B. A. degree, or do an equivalent amount of graduate work in special departments. He must pass each course at a grade of not less than 80 per cent., and prepare a suitable dissertation or oration, which he may be called upon to defend or deliver as a prerequisite of receiving the degree.

The M. A. degree may also be conferred upon persons, who, after attaining the B. A. degree here, continue their work in the graduate department of a college or university of high standing for at least one full session, and complete their work to the satisfaction of the faculty of this institution.

No honorary degree has ever been conferred by Bridgewater College.

ENDOWMENT.—A liberal endowment aids a college in a number of ways. In the first place, it makes it possible to secure the best teachers. Again, it secures time and incentive for the professor whose chair is endowed to pursue original investigations, so as to keep himself constantly in the fore front of his profession. Moreover, when an institution is endowed it is possible to reduce the tuition fees, or, if fully endowed, to remit them altogether. No institution can prosper from the income of tuition alone. Endowments are essential to the maintenance of a high grade of work. The College has made a respectable beginning towards a permanent endowment fund, but the funds in hand should be largely increased at the earliest possible moment.

The following form of bequest should be used :

"I give and bequeath to the Trustees of Bridgewater College the sum of.....Dollars (\$.....), which shall be used for the following purpose, to-wit (here describe the purpose for which it shall be applied).

(Name).....(Seal)."

SCHOLARSHIPS AND PRIZES are provided as follows :

MISSIONARY SOCIETY SCHOLARSHIP.—A scholarship worth \$50 is given each year by the Missionary Society of the College to some worthy student in the Bible Department.

ALUMNI SCHOLARSHIP.—The Alumni Association of the College has provided for scholarships in the different departments. Considerable endowment has been given to this end.

Washington and Lee University offers a B. A. graduate of Bridgewater College a scholarship in the graduate school, who becomes a candidate for the M. A. degree, or enters the Department of Engineering.

SOCIETY PRIZES.—The Victorian and the Virginia Lee literary societies offer each two prizes to their best declaimer and reciter, respectively.

MAGAZINE PRIZES.—*The Philomathean Monthly* has offered three prizes to the contributors :—one for the best poem, one for the best essay and one for the best story contributed by a student during the session.

MISCELLANEOUS.—No student will be permitted to board out of College, except by permission of the President and at boarding houses regularly licensed by the College.

All students who board in or near the College are required to attend Chapel regularly each school day. Each boarding student is expected to attend a college Bible class each Sabbath and preaching in Chapel Sabbath evening.

Students will furnish their own towels, napkins, window curtains and an extra pair of blankets for winter use.

Students are responsible for damage to furniture and buildings caused by them. They will be charged *pro rata* for all damages not individually accounted for.

Running, whistling, scuffling, loud talking or any other rude or boisterous conduct in the buildings is not expected.

The use of tobacco in the buildings or on or near the grounds and profane language are forbidden. The handling or use of intoxicants debars a student.

Athletic exercises are encouraged among the students; but the athletic teams do not engage in contest games with other institutions.

Students should have "College" written on all letters and packages sent them, to insure prompt delivery.

Members of the Church of the Brethren are expected to observe its usage in plainness of dress, and to bring their letters and become members of the church here during college residence.

Bridgewater College does not permit secret societies among her students.

At the ringing of the bell for study, students shall immediately repair to their rooms. At the retiring bell they shall put out their lights and retire promptly.

Students must be prompt and regular in attendance upon their classes. Permission to be absent should be obtained before the absence occurs.

The College Bookstore handles all books used in the College. That they may be sold cheaply cash must be paid; otherwise *10 per cent.* is added.

All boarding students are required to take gymnasium work under the Instructor. All others, ladies and gentlemen, may have the same privilege on payment of the fee and enrollment with the Instructor. Separate classes.

To every student the Faculty extends a hearty welcome. Come with the determination to study hard and to make improvement your first and great object. Be patient, hopeful, good-natured, energetic, industrious and persevering.

All correspondence and applications for catalogues, circulars, &c., should be addressed to the President.

GENERAL EXPENSES.

Board (including steam heat, light and furnished room), per term \$36.00 to \$40.00; per month, \$12.50 to \$14.00.

Day student's room, with steam heat, \$1.00 per month. Laundry (approximately), 75 cents per month.

Maticulation fee, paid but once per session, and not refunded, \$2.00.

Library Fee (paid by all students and used only for purchase or rebinding of books) 50 cents per term or fraction of a term.

Gymnasium Fee, \$1.00 per term.

Contingent deposit, unused part to be refunded, \$3.00.

The above boarding rates are computed on the basis of two students in a room. Students who desire to room alone will add \$2.00 per month to the above rates.

Students will not be permitted to board themselves in the college dormitories.

All payments are due one term in advance.

Select a Course

Every student should select a course. It is infinitely better to begin one's studies and school life with some definite course in view than to work without a plan. Often months of precious time are nearly squandered by students because they have no definite idea what plan to pursue in education.

The following courses are offered:

I. DEPARTMENT OF ARTS AND SCIENCE :

A. COLLEGE :

1. Graduate Course.
2. B. A. Course.

B. ACADEMY :

1. College Preparatory Course.
2. Agricultural Course.
3. Teachers' Normal.

II. BIBLE DEPARTMENT :

1. The Course.
2. Special Institute.

III. MUSIC DEPARTMENT :

1. Music Teachers' Course.
2. Voice Culture Course.
3. Piano Course.

IV. COMMERCIAL DEPARTMENT :

1. Business Course.
2. Shorthand and Typewriting Course.
3. Combined Course.

The College

TERMS OF ADMISSION.

TUDENTS are admitted to this course: First, by a diploma from our own Academy; Second, by examination; third by giving satisfactory evidence of having done the necessary preparatory work elsewhere. No student will be admitted to these classes who does not show sufficient evidence of scholarship to justify such admittance, and who is not at least sixteen years of age.

For admission to the College the student must offer fourteen units as specified below. By a unit is meant the equivalent of one study reciting five times a week through a session of at least thirty-six weeks, the recitation periods being not less than forty minutes in length.

ENTRANCE REQUIREMENTS.

The entrance requirements as given in our Preparatory Department will be found on page 19 of this catalogue. When this work is done elsewhere it must conform to these standards. The fourteen units must be chosen from the following:

ENGLISH.

English A1.—*Advanced Grammar and Grammatical Analysis.* This work must give evidence of an accurate knowledge of the structure of English sentences, including capitalization and punctuation, and must be correct in spelling.

English A2.—*Elementary Rhetoric and Composition.* The work covers Style and Invention. It should show a general knowledge of literary form, the use of the simpler figures of speech and paragraphing.

English A 3.—*Literature.* The specimens for reading are comprised under two groups, one for careful study and

practice, the other for reading. The works of the former group are read in class under the direction of the instructor and analyzed and discussed. The second group are read as parallel work by the student out of class.

1. For Study and Practice. The following are prescribed for the year 1010-11. Shakespeare's *Macbeth*; Milton's *L'Allegro*, *Il Penseroso*, *Comus*, and *Sycidas*; Burke's *Speech on Conciliation*; Macaulay's *Life of Johnson*; Carlyle's *Essay on Burns*; Washington's *Farewell Address*; and Webster's *First Bunker Hill Oration*.

2. For reading. A list of fifty works is given, representing the best of drama, prose and poetry produced in England and America. From this list the student chooses twelve, upon which he reports from time to time to his instructor.

3. History of Literature. The entire field of English and American Literature is traversed on the basis of such texts as Halleck's English and Matthew's introduction to American Literature.

MATHEMATICS.

Mathematics A1.—Algebra to Quadratic Equations.

Mathematics A2.—Plane Geometry.

Mathematics A3.— { Advanced Algebra through Pro-

SUBJECTS.

I. ENGLISH LANGUAGE.

B1.—*Advanced Rhetoric*.—This course presupposes a ready knowledge of the elements of Rhetoric. The regular college preparatory course or its equivalent will be required for admission.

Fall Term.—Genung's Working Principles of Rhetoric.

Winter Term.—Genung's Working Principles of Rhetoric, continued.

Spring Term.—Genung's Working Principles of Rhetoric, completed.
Johnson's Forms of English Poetry.

Themes, Essays, Orations, and Readings throughout the course.

B2.—*Anglo Saxon*.—This course is designed as a means of acquiring an intelligent understanding of English, chiefly on the philological side. The student is introduced to the history of the language and the origin and formation of words. The rudiments of Anglo-Saxon grammar are given special attention in the early part of the course. While the work is arranged so as to emphasize the language side of the study, an effort is also made to appreciate the artistic elements, both in prose and verse, of our earliest English literature. The principles of Anglo-Saxon syntax, the laws of scansion and the various verse forms are duly explained.

Fall Term.—Sweet's Anglo-Saxon Primer; Greenough and Kittridge's Words and their Ways in English Speech.

Winter Term.—Bright's Anglo-Saxon Reader, prose; Greenough and Kittridge, continued.

Spring Term.—Bright's Anglo-Saxon Reader, poetry; Greenough and Kittridge, completed.

This course and Class B1 each fulfill the requirements in English Language for the B. A. degree.

B3.—*Anglo-Saxon*.—This is an advanced course to which Class B2 or its equivalent is a necessary preparation. In this course, Teutonic Philology is emphasized, Anglo-Saxon is continued, and the student is introduced to Middle English poetry.

Fall Term.—Kent's Elene; Skeat's Principles of English Etymology, Part I; Skeat's Specimens of early English, Part II.

Winter Term.—Harrison and Sharp's *Beowulf*; Skeat's *Principles*, continued; Skeat's *Specimens*, completed.

Spring Term.—Harrison and Sharp's *Beowulf*, completed; Skeat's *Principles*, completed; Chaucer's *Prologue and Knight's Tale*.

II. ENGLISH LITERATURE.

Three courses are offered in this group. The college preparatory course in Literature, or its equivalent is required for entrance.

B1.—Fall Term.—*Elizabethan Drama*; Study of the period; *Specimens of the Pre-Shakespearean Drama*; Selected plays of Shakespeare.

Winter Term.—*Eighteenth Century Prose*; Study of the period; Lives and works of the prose writers from Addison to Dr. Johnson.

Spring Term.—*Nineteenth Century Poetry*; Study of the period; Page's *British Poets of the Nineteenth Century*.

B2.—Fall Term.—*Epic and Lyric Poetry to the Death of Milton*; Study of the period; The Elizabethan Lyrics; Milton's *Epics and Lyrics*.

Winter Term.—*Rise and Development of Fiction*; Study of the period; Cross' *Development of the English Novel*; Works of the chief authors.

Spring Term.—*American Literature*; Abernethy's *American Literature*; Page's *The Chief American Poets*.

This course and Class B1 will be given in alternate years. Either fulfills the requirements in Literature for the B. A. Degree.

B3.—Fall Term.—*The Renaissance*; Study of the movement, together with specimens of the various forms of Literature in which it resulted.

Winter Term.—*Classicism*; Study of the movement; Detailed study of classic poetry and the classic drama.

Spring Term.—*Romanticism*; Phelps' *English Romantic Movement*; Works of the chief romantic poets to Burns.

This course is open only to students who have completed Class B1 or Class B2 or their equivalent.

PHILOSOPHY.

B.—This course is open only to students who have satisfactorily completed the college preparatory course or who give evidence of sufficient mental maturity to carry the work. The fall term will be given to a study of Creighton's

An Introductory Logic; the winter term to Bowne's Introduction to Psychological Theory; and the spring term to McKenzie's Manual of Ethics.

The text in logic contains an abundance of practical exercises. Each member of the class will be required to write an extended paper on some assigned subject to be read and criticised in class in both psychology and ethics.

HISTORY AND SOCIAL SCIENCE.

B1.—In this course texts of histories of the Oriental Nations and Greece; Rome: Its Rise and Fall; Middle Ages will be used. Each member of the class will be expected to report in class each term on at least three assigned topics to do a reasonable amount of collateral reading in addition to filling in a series of blank maps.

B2.—The first term the class will study Myers' Modern Age, prepare class reports and fill in blank maps as in course B1. The second term will be devoted to the study of Economics, and in addition each member will prepare several extended class reports on vital economic topics. The third term will be devoted to the study of Sociology and each member will be required to do extensive library reading on assigned topics and prepare class reports.

Classes B1 and B2 given in alternate years only. B1 will be given in 1910-11.

MODERN LANGUAGES.

The school of Modern Languages includes German and French. In each two courses are offered.

GERMAN.

B1.—Fall Term.—Joynes-Meissner's German Grammar; Stein's Exercises I.; Hosmer's History of German Literature; Stern's Geschichten vom Rhein.

Winter Term.—Joynes-Meissner's Grammar; Stein's Exercises I.; Hosmer's History of German Literature; Freytag's Die Journalisten; Keller's Legenden.

Spring Term.—Joynes-Meissner's Grammar; Stein's Exercises I.; Hosmer's Literature; Schiller's Wilhelm Tell; Lessing's Minna von Barnhelm.

B2.—Fall Term.—Bierwirth's or Whitney's Grammar; Stein's Exercises; Francke's History of German Literature; Schiller's Maria Stuart; Goethe's Hermann and Dorothea.

Winter Term.—Bierwirth's or Whitney's Grammar; Stein's Exercises; Francke's German Literature; Scheffel's Ekkehard; Heine's Die Harzreise.

Spring Term.—Bierwirth's or Whitney's Grammar; Stein's Exercises; Francke's German Literature; Schiller's Maid of Orleans; Kleist's Prinz Fredrich von Hamburg; Grilparzer's Sappho.

FRENCH.

B1.—Fall Term.—Whitney's French Grammar Reviewed, Mairret's La Tache du Petit Pierre, Corneille's Le Cid.

Winter Term.—Dumas's Excursions sur les Bords du Rhine, Canfield's French Lyrics.

Spring Term.—Hugo's Hernani, Saintsbury's French Literature. Exercises weekly throughout the course. Five times a week.

B2.—Fall Term.—Lamartine's Scenes de la Revolution Francaise, Sand's La Petite Fadette.

Winter Term.—Balzac's Eugenie Grandet, Theirs's Expedition de Bonaparte in Egypt.

Spring Term.—Bruno's Tour de la France par deux enfants, Racine's Athalie, Saintsbury's French Literature, Exercises weekly. Five times a week. Authors read varied from year to year.

Classes B1 and B2 given in alternate years at present.

MATHEMATICS.

B1.—*Advanced Algebra and Solid Geometry*.—This course includes Advanced Algebra and Solid Geometry. The Algebra begins with Quadratic Equations and ends with the Theory of Equations. This course is open to students who have completed the college preparatory course or its equivalent.

Algebra will be studied during the first two terms, and Solid Geometry during the third term.

TEXTS: Wells' Advanced Course in Algebra; Wells' Solid Geometry.

B2.—*Trigonometry and Analytic Geometry*.—The first term of this year is given to Plane and Spherical Trigonometry, and the second and third terms to Analytic Geometry.

Students who have completed Class B1 or its equivalent will be admitted to this class.

TEXTS: Wells' Plane and Spherical Trigonometry, Nichol's Analytic Geometry.

B3.—*Calculus and Surveying*.—This class devotes three months to Differential Calculus and three months to plane Surveying. In Surveying, the class gives at least three hours a week to practical field work, and, before the work is completed, each student must be able to do accurate surveying. Students who have completed Class B2 or its equivalent will be admitted to this class.

TEXTS: Osborne's Differential and Integral Calculus; Carhart's Plane Surveying.

B4.—*Graduate Course*.—This course is open to students who have completed all the above B classes or their equivalents. This work is intended for those who want to specialize in Mathematics.

The year will be given to the study of Solid Analytic Geometry, Advanced Calculus and Differential Equations.

TEXTS: Charles Smith's Solid Geometry; Echols' Differential and Integral Calculus.

PHYSICS.

B1.—*General Physics*.—This course requires a good working knowledge of Algebra, Plane and Solid Geometry, Trigonometry, and Analytic Geometry. A carefully graded course of experiments must be performed by each student.

TEXTS: Carhart's University Physics, or Hastings and Beach's General Physics.

B2.—*Sound and Light*.—This course is taken up with a careful study of Sound and Light. One term will be given to Sound and two terms to Light. Students who undertake the course must have a knowledge of Mathematics equivalent to that required to pass Class B3 in this College.

Suitable texts will be announced when the class is organized.

CHEMISTRY.

B1.—*General Chemistry*.—This class devotes three terms to the study of General Chemistry. Much attention is given to laboratory work. Each student must perform about one hundred and fifty experiments. This course aims to cover the subject of General Chemistry in a thorough manner.

TEXTS: Remsen's College Chemistry.

B2.—*Industrial Chemistry*.—This course will be given to the study of Chemistry as applied to purposes of mankind. It is a subject of absorbing interest to the student of Chemistry. The course begins with a study of the processes by which metals are extracted from their ores. Then follows the study of the manufacture of chemicals, of porcelain ware, of leather, of soap, of paper, of cotton goods, of sugar and of a number of other articles which have so much to do with our comfort and happiness. Students who enter this class must have a good knowledge of General Chemistry.

TEXTS: Remsen's Organic Chemistry; F. H. Thorp's Outlines of Industrial Chemistry.

GEOLOGY.

B1.—*Physiography and Geography*.—The lands, the atmosphere and the oceans are the subjects of study. Regional investigations of various physiographic and topographic provinces of the United States followed by a review of the regions of the world involving an areal study of each continent and its several countries, their geology, topography, hydrography, soil, climate, resources, population, industries, government, and so forth. Ample laboratory and field exercises are demanded. Five times a week throughout the year.

B2.—*Geology*.—The course is intended to impart such a knowledge of geology as should be possessed by every well educated man. It aims to give an elementary survey of dynamic, structural, physiographic, and historical geology, and a reasonably full knowledge of minerals, rocks, and fossils, and to familiarize the student with the nature of the field covered by geological study. A general introduc-

tion is given to mineralogy, and special attention to the physiographic geology of the United States. An elementary knowledge of physics and chemistry is necessary. Extensive laboratory exercises and much field work are required. Five times a week throughout the year.

B3.—*Mineralogy*.—This is a special course in elementary mineralogy. The work includes lectures, quizzes, and laboratory exercises. It is the purpose of the course to give a thorough, fundamental conception of the elements of mineralogy. Five times a week throughout the year.

B4.—*Graduate Course*.—The nature of this course will vary, depending on the needs and desires of the class. The work may investigate the following subjects: either (1) Practical Geology, including some advanced work in structural geology and topographic and geologic mapping; or (2) elementary Economic Geology; or (3) Optical Mineralogy and Petrography. Not more than one of these three subjects will be given in any one year.

The situation of the college affords exceptional opportunities for field work, being in the heart of the Shenandoah Valley in the highlands of Virginia, and in easy reach of both the Old and the New Appalachians which illustrate a large variety of geologic and physiographic processes.

BIOLOGY.

B.—*General Biology*.—The time given to this study is one year, with two recitations and four hours laboratory work each week. The study begins with protoplasm and the life phenomena of the cell, and advances by gradual steps to the higher forms. The College has recently increased its facilities for biological work by the purchase of a number of new microscopes and other apparatus for the laboratory. This course is required of students taking the course in Agriculture.

ASTRONOMY.

B.—*Mathematical Astronomy*.—The aim of this course is to give such knowledge of the subject as every well-informed person should have. Young's General Astronomy

is used as a text. Historical, descriptive, physical, spherical and practical Astronomy are discussed; as well as the principles and laws of the science, the theory of orbits, and a general study of the problems of Longitude, Latitude, Eclipses, Time and Tides. This course may be elected by juniors or seniors.

LATIN.

B1.—Livy, selections from Books I, XXI and XXII; Cicero, *De Senectute*; Virgil, *Bucolics*; Prose Composition; Studies in Roman Literature. Five times a week. Required of Freshmen.

TEXTS: Lord's *Livy*; Kelsey's *Cicero De Senectute*; Allen and Greenough's *Virgil's Bucolics and Georgics*; Bender's *Roman Literature*; Allen and Greenough's *Latin Grammar*, Revised Edition; Mather and Wheeler's *Latin Prose Writing*; Loius's *Elementary Latin Dictionary*, preferred.

B2.—Horace, *Satires* and selected *Epistles*; Juvenal, the principal *satires*; Cicero, *De Amicitia*; Prose Composition; Private life of the Romans. Five times a week. Required of Sophomores.

TEXTS: Chase and Stuart's *Horace*; Leverett's or Wright's *Juvenal*; Kelsey's or Bennett's *Cicero's De Amicitia*; Preston and Dodge's *Private Life of the Romans*; Allen and Greenough's *Latin Grammar*.

B3.—Tacitus, *Historiæ*; Horace, *Odes* and *Epodes*; Selected Letters of Pliny; Prose Composition; Latin Scansion. Five times a week. Elective.

TEXTS: Teubner's *Tacitus*; Smith's *Horace*; Montague's or Westcott's *Select Epistles of Pliny*; Lane's *Latin Grammar*; Eaton's *Latin Prose*; *Latin Meters*.

B4.—Seneca, *Epistles*; Plautus, *Miles Gloriosus*; Terence, *Phormio*; Martial, select *Epigrams*; The Roman *Satura*, Remnants of Early Latin; Prose Composition. Five times a week. Elective.

TEXTS: Hurst and Whiting's *Seneca*; Tyrell's *Miles Gloriosus* and Lindsay's *Captivi of Plautus*; Wagner's *Terence*; Stephenson's *Martial*; Allen's *Remnants*; Nettleship's *The Roman Satura*; *Latin Meters*; *Lectures*.

GREEK.

B1.—Lysias, six orations; Herodotus, Book VII; Homer, selections from Iliad or Odyssey; Plato, Euthyphro; Prose Composition. Five times a week. Required of Freshmen who elect Greek.

TEXTS: Bristol's Lysias; Keep's Herodotus; Perrin and Seymour's Homer's Odyssey; Heidel's Plato's Euthyphro; Higley's Greek Composition; Jebb's Greek Literature; Hadley-Allen's Greek Grammar; Liddell and Scott's Intermediate Greek Lexicon.

B2.—Xenophon, Memorabilia, Books I and II; Aeschylus, Prometheus Bound; Demosthenes, DeCorona; Prose Composition; Grammar reviewed.

TEXTS: Winan's Xenophon's Memorabilia of Socrates; Mather's Aeschylus's Prometheus Bound; D'Ooge's Demosthenes on the Crown; Sidgwick's Prose Composition; Goodwin's Moods and Tenses of the Greek Verb; Mahaffy's Old Greek Life.

B3.—Euripides, the Bacchae; Thucydides, Book I; Sophocles, Antigone.

TEXTS: Beckwith's Euripides' Bacchantes; Morris's Thucydides; Humphrey's Sophocles' Antigone; Haigh's Attic Theater; Hogue's Irregular Verbs of Attic Prose; Sidgwick's Prose Composition.

B4.—Demosthenes, Phillipics; Aristophanes, The Clouds; Aeschines, Against Ctesiphon; Jebb's Attic Orators; Greek Literature. Prose Composition.

TEXTS: Teubner's Demosthenes, Vols. I and II; Humphreys' Clouds of Aristophanes; Richardson's Aeschines against Ctesiphon; Jebb's Attic Orators; Goodwin's Moods and Tenses.

For fuller description of courses see Entrance Requirements under The College.

In keeping with a somewhat anomalous but time-honored tradition of the College those who complete the College Preparatory Course creditably receive the degree of Bachelor of English in 1911; thereafter discontinued.

AGRICULTURAL COURSE.

The Science of Agriculture finds its basis directly in the sciences of Biology and Chemistry, and indirectly in Geology and Physics. The art of farming is the practical application of these sciences to the farm for the purpose of gain. In the following course in Agriculture it is believed that sufficient emphasis is placed upon the fundamental theory of Agriculture to enable the one who completes the course to meet intelligently the majority of the questions that confront the practical farmer. The course is by no means intended to be a professional one, but it includes the study of those branches, the knowledge of which the average farmer should have, and may be expected to have under the modern opportunities for education.

FIRST YEAR:

Fall Term.—English Grammar, Arithmetic, Physics, History A, Drawing.

Winter Term.—English Grammar, Arithmetic, Physics, Meteorology, History A.

Spring Term.—English Grammar, Arithmetic, Physics, Physiology, History A.

SECOND YEAR :

Spring Term.—Geology, Botany, Agriculture, Disease of Plants.

TEACHERS' NORMAL.

A special Teachers' Normal will be conducted by the College Faculty and others during the last ten weeks of the spring term. The advantage derived from attending such a school is to be measured not only by the increase in one's stock of knowledge, but also by the enthusiasm and energy for work that are sure to be gained by the association with scores of earnest teachers and students. If one lives in an atmosphere of thought he must think; as he becomes better or worse for the air he breathes, so the spirit of literary aspiration is contagious; therefore, no student or teacher—and the real teacher never ceases to be a student—can afford to miss the opportunity of mingling with his fellows who are alive to progress. Teachers of the public schools will find this Normal of the greatest value; and are heartily invited to join us. Write for the special circular about February 1, 1911.

Bible Department.

It is the aim of this department to develop as full and complete knowledge of the Bible itself as can be acquired in the time occupied by the course. A large portion of the text is carefully studied both historically and exegetically.

The student may either pursue the whole course, or select any studies he prefers. Since, however, the studies are grouped in the course with a view to fitness and unity, best results will be obtained by him who completes it.

To enter, the student should possess at least a fair knowledge of English grammar and studies of like difficulty. It is wisest to complete thoroughly at least the College Preparatory course before beginning this one, for the better his preparation, the more valuable will the course be to him.

This course will be found especially helpful to those who teach or officers of the Sunday School, to those preparing to be pastors, or for the work of the mission field.

There are, then, here very hopeful facilities for any one who has the courage and patience to try. A good, practical, working knowledge of the Bible is offered to all who desire it.

To take New Testament Greek, at least Greek A1 is a necessary prerequisite.

THE COURSE.

FIRST YEAR.

Fall Term.—(1) Old Testament: Abraham to Sinai; (2) An Initial Study of the entire New Testament text, using Kerr's Introduction as a reference book; (3) New Testament Greek: Luke with Grammar and weekly exercises; (4) English A2; (5) Public Address; (6) Vocal Music.

Winter Term.—(1) Sinai to I Kings; (2); The Life of Christ. Text: The Four Gospels, with Stalker, Speer,

Andrews as parallel reading; (3) New Testament Greek: Acts, Grammar and weekly exercises; (4) English A2; (5) Public Address; (6) Vocal Music.

Spring Term.—(1) Between the Old and the New Testaments; Lectures with Matthews' New Testament Times in Palestine for reference; (2) The Life of Paul. Text: Acts and Paul's Epistles, with Conybeare and Howson's Life of St. Paul for parallel reading; (3) (New Testament Greek: Galatians and Revelation, with Grammar and weekly exercises (4) English A2; (5) Sermon Building; (6) Vocal Music.

SECOND YEAR.

Fall Term.—(1) Old Testament: Prophecy; (2) Our Lord's Parables and Miracles. Text: The Gospels with Morgan, Taylor, and other authors as parallel reading; (3) English A3; (4) History A; (5) Philosophy A.

Winter Term.—(1) Old Testament: Prophecy; (2) Exegesis of Romans and First Corinthians; Evans' The Book of Books; (3) English A3; (4) History A; (5) Philosophy A.

Spring Term.—(1) Old Testament: Prophecy; (2) Exegesis of Philippians, Colossians, Galatians, and Hebrews; (3) English A3; (4) Mullin's Why Christianity is True; (5) Sunday School Pedagogy.

THIRD YEAR.

Fall Term.—(1) Biblical Literature, Lectures and Moulton for reference; (2) History of Religion, Menzie and Lectures; (3) Old Testament Theology; (4) Philosophy B; (5) The Christian Ministry, reference to Gladden, Broadus and others.

Winter Term.—(1) The Hebrew Psalter, Lectures, with Barton, Kirkpatrick and others for reference; (2) Church History, Fisher, first half; (3) New Testament Theology; (4) Philosophy B; (5) Systematic Theology; (6) Doctrine of the Church of the Brethren.

Spring Term.—(1) Homiletics; (2) Church History, Fisher, second half; (3) History B2 (Sociology) or Theism;

(4) Systematic Theology; (5) The Study and work of Missions, Lectures with Warneck's History of Protestant Missions for reference.

In addition to the above studies, a limited number of electives will be offered. These will be announced later.

Prepared papers from library or other sources, addresses or sermons throughout the course.

Upon the completion of this the student will be entitled to a diploma of graduation with the degree of Bachelor of Sacred Literature.

Music Department

STUDIES.

COURSES FOR TEACHERS, SINGERS AND INSTRUMENTAL PERFORMERS.

THIS department provides fundamental training in the main branches of Music. Besides bringing the pupil to a high degree of accomplishment, we prepare ladies and gentlemen for an active career in the profession of teaching music. No young lady's education is now complete without a knowledge of vocal and instrumental music such as our courses provide. Leading educators believe that music is a necessary factor in æsthetic development. This need and demand we are prepared to meet.

The lessons for the Reed-organ, Piano and Voice Culture are given either privately or in classes of three. The methods used are the best ones the teachers in charge have been able to secure from the best sources. Vocal Music, Chorus Singing, Ear and Eye Culture, Harmony, Theory, Analysis, Counterpoint, History and Methods of Teaching are taught in classes of suitable number.

MUSIC TEACHERS' COURSE.

The teachers' Course requires three years, and it is intended to qualify for a musical career in conducting and teaching in musical institutes, normals, schools, etc. The study of harmony, instrumental music, and voice culture in this course, is pursued from the beginning to the close. These prepare one to compose music, sing, or play in an artistic style.

First Year.—Chorus, Introductory Theory, Harmony, Piano or Organ, Voice Culture, Ear Training and Sight Reading.

Second Year.—Chorus, Harmony, History of Music, piano or Organ, Voice Culture.

Third Year.—Chorus, Piano or Organ, Voice Culture, Harmonic Analysis, Methods and Directing Practice.

NOTE.—The studies in Piano required in this course are the same as those of the Elementary, Preparatory and Intermediate years of the Piano Course.

THEORY.

The following course in theory is required of those who complete the Music Teachers' or the Voice Culture Course.

1st Term.—Introductory Theory; Beginning Musical Notation, Keys, Scales and Signatures, Intervals, etc.

2nd Term.—Review of first term, Harmony begun, Chord Connection and Simple Part-writing from given basses or sopranos.

3rd Term.—The Chords of the Seventh, with Exercises in Harmonizing sopranos and basses in open as well as close position. Modulation begun. Illustrative examples and explanations of chord progressions and modulations required at the piano.

4th Term.—Harmonizing Melodies which modulate, no figuring being given. Exercises in Modulation at the piano, including transposition of various models into all keys. Advanced study in Secondary Seventh chords.

5th Term.—Chromatically Altered Chords, Enharmonic Changes, Modulation in General.

6th Term.—The Suspension, Retardation, Appoggiatura, Anticipation, Passing-tone, Embellishment, Pedal point, Melodic figuration and accompaniment. The textbook is Lessons in Harmony by Heacox and Lehman.

7th Term.—Harmonic Analysis, by Cutter. Also a review of Harmony at the keyboard, the exercises being played instead of written.

8th Term.—Harmonic Analysis Completed.

The above course of theory with two terms of Simple Counterpoint will be required of those who complete the

Piano Course. Text-book, Lehman's Forty Lessons in Simple Counterpoint.

METHODS.

Methods of teaching, and practice in directing are required of all those who complete the Teachers' Course. The work is taken up systematically, each pupil being required to teach a number of lessons before the whole class, who, with the teacher in charge, criticise his work. This practice is found very helpful to those who expect to teach in Public Schools, Normal Classes or other classes.

HISTORY OF MUSIC.

The Course in History of Music is required of those who complete either the Music Teachers' Course, Piano Course or the Voice Culture Course.

This Course covers the entire History of the development of Music, from the Ancient Chinese, Japanese, Babylonian and Greek nations until the present, giving special attention to the Music of the Christian era.

PIANO COURSE.

ELEMENTARY YEAR.—Handculture ; National Graded Course I.; Schmitt-Faelten ; Scales ; Kohler Op. 157 ; Duvernoy Op. 176 ; Easy Pieces and Sonatinas from Kuhlau, Lichter, and others ; Introductory Theory ; Harmony and Composition.

PREPARATORY YEAR.—Schmitt-Faelton ; Scales ; National Graded Course II. and III. ; Czerny's Selected Studies, Book I. ; Melodious Studies from Heller. Pieces from Heller, Schuman, Haydn and some modern composers, accompanying ; Harmony and Composition ; History of Music.

INTERMEDIATE YEAR.—Scales ; Octaves and Arpeggios ; National Graded Course IV. and V. ; Peter Silea ; Studies by Cramer, Clementi ; School of Velocity, Book II. ; Czerny ; Bach's Two-part Inventions ; Selections from Beethoven, Henselt, Brahms, Moszkowski, Chopin, etc. ; accompanying ; Harmonic Analysis.

GRADUATING YEAR.—National Graded Course VI. and VII.; Bach's Three-part Inventions; Concertos from Weber, Liszt and Chopin; Sonatas from Beethoven; Concert selections from Chopin, Mendelssohn, Rubinstein, Schubert, Liszt, etc.; Sight playing and accompanying; Simple Counterpoint.

VOICE CULTURE COURSE.

It is through the power, quality and method of using the voice that the hearer is impressed. Singing, without a correct habit of breathing or method of tone-producing, is ruinous and leads to deformities of the muscles and often results in laryngeal troubles and diseases of the throat.

Inasmuch as it is somewhat difficult to outline a course for Voice Training and Art of Singing, no studies will be outlined here, but the needs of each student will receive careful attention, and studies given accordingly. No special method is followed, but the best is chosen from the different methods.

LESSONS IN CLASSES OF THREE.

Voice Culture, Piano and Organ may be studied in classes of three. This plan curtails expense and often gives the pupil better advantages than private instruction. No one is held back because of others; each pupil has his own studies and pieces; and although he does not practice the lesson of his classmates, he nevertheless by hearing it recited learns their music in addition to his own. It really amounts to a private lesson before others, which enables one to play or sing with ease and grace, in society or in public. By this system "emulation is stimulated as ability is matched with ability, mind comes in contact with mind, and intellect is sharpened with intellect." Seeing others overcome difficulties inspires us to overcome our own.

REMARKS.

Students who pursue the Music Teachers' Course are required to complete Grammar, Arithmetic, English Language, and Elocution. In the third and fourth years of the Piano Course the student is required to take two literary courses each year chosen from the departments of English,

History, German or French; but no student shall take more than two literary studies at a time.

Diplomas are awarded to persons who complete satisfactorily the Piano Course, Voice Culture Course or Music Teachers' Course.

Candidates for diplomas in the Piano Course or the Voice Culture Course must perform successfully in public at least twice.

The department has been equipped with modern instruments, including a Stieff Concert Grand Piano. These are placed in comfortable practice rooms for instrumental students. Students in Organ will use Root's Model Organ Method.

In preparation for public performances, pupils who are sufficiently advanced are expected to appear in public in the "pupils' recitals."

Students are expected to be punctual at their practice periods, lessons and classes.

No student will be permitted to loiter in or about the Music Room or intrude in any way upon others while practicing.

The instruments in Stanley Hall may be used only by those who take instrumental lessons.

Students should bring with them such sheet music, instruction books and etudes as they may have on hand.

MUSIC DEPARTMENT EXPENSES.

All expenses are due and payable one term in advance. For attendance less than one term tuition will be charged at month rates. No deduction is made for absence of less than two weeks.

Commercial Department

THE purpose of this department is to prepare young men and women to conduct intelligently the affairs of the business world. A broad and practical training in business methods is necessary to the person who would most rapidly attain business success. Thousands fail annually through a lack of business training, and as our rapidly increasing commercial interests continue to develop, the demand for well trained young men and women to take charge of the business of our country increases.

So thoroughly commercial has our country become that there is no calling in which a knowledge of business is not demanded. A man must either possess this knowledge himself, or he must suffer for the ignorance and carelessness of those whom he trusts. From the shortness of the time required to obtain a practical knowledge of business principles, one would suppose that both young men and women would avail themselves of the opportunities offered by our numerous business colleges. The main drawback has been the cost in obtaining a business education. Few young people can afford to pay \$150 to \$250 for three or four months' training.

Business colleges giving instruction in this one line of work, and having no other means of support, are usually located in large cities, where the enormous rent and the expenses of living compel them to charge high rates of tuition.

Realizing the great demand for trained helpers, we call the attention of young men and women to the excellent opportunities we offer of acquiring a complete business education at a cost that places such training within the reach of all.

This school offers three courses: (1) The Business Course, consisting of the regular lines of training for business life; (2) The shorthand and Typewriting Course,

intended for office helpers and amanuenses; (3) The Combined Course, an extended course of training, intended for those preparing to teach and for those seeking a more complete equipment for financial and commercial pursuits.

QUALIFICATIONS FOR ENTERING.—If a student is found deficient in any study he will receive special instruction until he is able to enter the regular classes, but will not be permitted to do so until he has the necessary preparation.

For convenience in classification the work is divided into three sections. The first is section A, which includes the beginning classes in the regular preparatory course. This is introductory to the regular commercial courses, and may be entered without examination. The second is section B, which includes the Business Course and the Shorthand and Type-writing Course. To enter this section, students must first pass an examination covering the work included in section A, or furnish satisfactory certificates showing equivalent work completed elsewhere. The third is section C, which includes the second year of the Combined Course. To enter this section, students must pass an examination covering both of the preceding sections in full, or furnish satisfactory certificates showing equivalent work completed elsewhere.

BUSINESS COURSE.

First Term.—Commercial Arithmetic, Bookkeeping, Grammar, Spelling, Penmanship.

Second Term.—Commercial Law, Commercial Arithmetic, Bookkeeping, Grammar, Letter Writing, Penmanship.

Third Term.—Rapid Calculation, Elocution, Bookkeeping, Grammar, Penmanship.

SHORTHAND AND TYPEWRITING COURSE.

First Term.—Shorthand, Typewriting, Grammar and Composition, Spelling, Penmanship.

Second Term.—Shorthand, Typewriting, Grammar and Composition, Commercial Law, Penmanship, Letter Writing.

Third Term.—Shorthand, Elocution, Typewriting, Grammar and Composition, Office Practice.

COMBINED COURSE.

FIRST YEAR.

First Term.—Grammar and Composition, Commercial Arithmetic, Elocution, Penmanship, Spelling, Typewriting.

Second Term.—Grammar and Composition, Commercial Arithmetic, Commercial Law, Penmanship, Typewriting, Letter Writing.

Third Term.—Grammar and Composition, Commercial Arithmetic, Penmanship, Shorthand.

SECOND YEAR.

First Term.—Bookkeeping, Shorthand, Typewriting, Rhetoric.

Second Term.—Bookkeeping, Shorthand, Typewriting, Rhetoric, Commercial Geography.

Third Term.—Bookkeeping, Shorthand, Typewriting, Rhetoric, Office Practice.

TEXT BOOKS: Rowe's Commercial and Industrial Bookkeeping; Reed and Kellogg's Higher Lessons in English; Loomis's Letter Writing; Modern Business Speller; Essentials of Business Arithmetic; Lyons' Commercial Law; Mosher's Complete Touch Typewriter Instructor; Phonographic Amanuensis; Reporter's Companion; Universal Dictation Course; Kimball's The English Sentence; Lewis's Inductive Rhetoric; Adams' Commercial Geography.

A diploma of graduation will be conferred upon the completion of the above courses.

BOOKKEEPING.—This constitutes the framework of the Business Course. In this department books are actually opened, conducted, and closed by the student. A great variety of business is represented and conducted by the most modern, most progressive, and most approved methods. The student not only makes himself thoroughly acquainted with the science of accounts, but is drilled in the

practical application of the principles of this science to the various forms of business in the commercial world.

COMMERCIAL LAW.—No man can afford to enter the broad arena of business without a knowledge of his commercial rights and duties. It is our aim to acquaint the student with those features of law which every business man should know, and without a knowledge of which he is at the mercy of sharpers and business tricksters.

COMMERCIAL ARITHMETIC.—Particular attention is paid to those parts of arithmetic which are especially necessary to the business man. Not only are rules and principles taught, but what is infinitely more important, thorough drill is given in applying them with the greatest rapidity and accuracy.

LETTER WRITING.—The business of this age being so largely conducted by letter, a knowledge of business correspondence is simply imperative, and a student can not attach too much importance to this part of the work. Many a young man has failed to secure an important position on account of some blunder in his application, due to ignorance of this subject.

PENMANSHIP.—Good penmanship is its own advertiser, wears its value on its face. A good handwriting often proves a stepping-stone to a lucrative position. Indeed it is an indispensable aid to every one, whatever may be his position in society. We teach the most practical system of rapid writing. While students are divided into classes, they at the same time receive individual instruction. Particular attention is paid not only to form, movement, etc., but also to the correction of errors and the best way to avoid them. Special classes in ornamental writing, engrossing, flourishing, &c., are organized when applied for.

COMMERCIAL GEOGRAPHY.—Scarcely any subject connected with commerce is more interesting than this. The acquisition of islands by our government, the extension of our trade, the competition between our Gulf and Eastern ports, and many other matters of commercial interest are attracting the attention of the business men of the entire country.

SPELLING.—Every College student ought to be able to spell all ordinary words correctly. As a matter of fact—let it be regretted—few are able to do so. Experience has shown us the importance of this subject, and therefore we lay great stress upon it. The standard for passing the subject is an examination grade of 90 per cent.

The time required to complete the Business Course is from two to three terms, according to the ability, application, and previous advantages of the student. Those who are prepared to take this course in less than the allotted time will not need the two full years to complete the Combined Course.

As each student receives individual instruction, especially in bookkeeping, his progress is not retarded by less apt or less industrious students, nor is he forced on by those who are able to make more rapid advancement.

OUR COMMERCIAL ROOM.—A large room has been fitted up especially for the Commercial Department. It is well lighted from the rear and two sides, the students all facing one way—toward the unlighted side of the room. The room is furnished with good, substantial tables, all finished in oak and trimmed with green oil-cloth. The tables are all of the same size, and have drawers for students' books, stationary, etc. The chairs, blackboards, and other furniture of the room make it inviting and convenient in every respect. In the rear of the room are the offices. The offices, as we have them at present, have inscribed over the arches in front the following names: "New York College National Bank," "B. T. Chase Real Estate Co.," "Commercial Emporium," "Post Office," "Trans-Continental Shipping Co.," "Chicago Students' Commercial Bank," "N. Y. & C. R. R. Co.," "M. R. Cary & Co., Insurance," "Central Commission Co.," "National Wholesale Co." This room is second to no commercial room in the Valley, and is better equipped than those ordinarily found in exclusive business colleges.

SHORTHAND.—The varied uses of Shorthand are so well known, and its benefit so fully recognized by business and professional men, that we deem it unnecessary to dwell

at length on the importance of gaining a practical knowledge of the art.

We teach the Ben Pitman System of phonography, using Howard's Phonographic Amanuensis and Reporter's Companion. The teacher in this department, however, introduces such contractions and expedients as he has found to be of advantage in actual practice.

TYPEWRITING.—This, going hand-in-hand with Shorthand, will receive its due share of attention. The commercial world is making stronger demands today for competent typewriters than ever before, hence the necessity of careful preparation to meet the demands. After the student has acquired good, accurate fingering, and has learned to manipulate the machine, he will have letters, speeches, court work, etc., dictated to him, and will be instructed in making proper transcripts of his notes. The Touch System is taught. We use the Remington and Oliver typewriters.

The time required to learn shorthand varies greatly with different students. It depends upon the attitude of the student, upon the efforts he puts forth, and also upon his previous education and training. If he possesses average ability and industry he may possibly be prepared as an amanuensis in six months. Some take a year or more. Very few will be able to graduate in this course in less than three terms.

For an amanuensis diploma the student will be required to write from new matter at the rate of 90 words per minute, and transcribe his notes on the typewriter at the rate of 30 words per minute.

If the student does not possess a satisfactory knowledge of penmanship, orthography, practical grammar, and correspondence, he will be required to study these subjects before entering this department.

Students who enter for the Shorthand and Typewriting Course will not be permitted to take studies outside the course except by the consent of the faculty.

POSITIONS.—We aid our graduates in securing positions. The College has frequent applications each year for bookkeepers and amanenses, and nearly always has more good positions waiting to be filled than it has students prepared to fill them. Any one who completes either course in a satisfactory manner is practically certain to secure a good position in a short time.

N. B.—All Alumni are cordially invited to co-operate constantly with the President in making the roll of our Alumni, and their present residences and occupations, perfectly correct. Does any one recall a name that has been accidentally omitted? None are willingly forgotten, but all are remembered with a kindly solicitude.
